Modular for:
**NHS &
HEALTH SECTOR**

High quality bespoke
and lower cost modular
extensions/annexes

Cotaplan have a track record of delivering high quality internal spaces to fulfil emergency or planned expansion requirements for hospitals or care locations.

Our portfolio across these pages identifies high quality external and internal finishes complying with current NHS and healthcare regulations. We can provide and work with specialist medical equipment suppliers providing a turnkey approach.

Our centrespread case study identifies phased modular construction at East Surrey Hospital providing a two storey completion, followed by a seamless extension to three storey over 2 consecutive years, delivering planned expansion and budget assurance.
